## SUMMARY

I am a motivated student with a strong interest in frontend development. I have hands-on experience with HTML, CSS, JavaScript, and Vue.js, and have explored mobile development using Flutter and Dart. I am able to perform well under pressure, enjoy learning new tools, collaborating with others, and facing new challenges.

## PROJECT EXPERIENCE

### The Art Shop Web Application

Nov 2023 – Feb 2024

- Built a responsive art store website using HTML, CSS, JavaScript, Vue.js, and MongoDB, allowing users to browse and view artwork easily on all devices.
- Designed a clean and user-friendly interface, and implemented product and user data storage using MongoDB for smooth backend integration.

### Team Up Mobile Application

Oct 2024 – Feb 2025

- Developed a cross-platform mobile application using Flutter and Dart for team-based sports scheduling and communication
- Integrated MongoDB Atlas to manage user profiles, match data, and real-time team coordination
- Designed an intuitive interface for creating and joining game rooms, managing profiles, and viewing team maps
